**ELMER J. McGOVERN Presents** 

THE FAMOUS DANCER.

The Strangest, Most Vivid and Startling Story of the Wild Life of Half-Naked Savages of the South Sea Islands Ever Filmed.

A wildly fancinating story of the conflicts, combats and struggles of rebellious mea, who fought for "Nasoni," the Goddess of the Sea. She was a young, beautiful and captivating girl of the wilds. Clad only in youthful innocence, a wisp of tropical grasses and beads for adornment—shining eyes, fiying feet—flaunting the youths who would win her. Cast alone among man-enting savages, on an isolated island of the sea, the strange influence of her daring dances over the natives paves the way to the heart of a truly wonderful and thrilling romance. Her heart was a torrest of fire—Her soul expressed in the spirit of the dance—Her love was forbidden for the man of civilization—But she won a soul-stirring triumph.
